

The Village Series

Tharston at the start of WW2

Part 3 – 1932 Register of Electors

Nigel Peacock

Introduction

This list is a 'stand-alone' resource but is useful to have alongside other research.

It is always useful to have another village list as near as possible to the one you are considering as this can help identify possible errors and maybe even family events like moving to a new house or marriage. The nearest found available information to the 1939 Register is the Register of Electors for Tharston dated 1932. Although this has names of people who owned land or property in Tharston but lived out of the village, a significant number of villagers appeared in both data sets. This is also a useful look into who owned land and property in Tharston.

By 1939 there was movement nationally in population and it is not surprising that several appropriate names appear on only one of the lists even though only 7 years apart.

1932 Register of Electors transcript

The register contains the names in alphabetical order of all those entitled to vote at Parliamentary and Local Government Elections.

The end column, (-), is a cross reference to the 1939 Register entry.

The index letters in the Franchise columns (a) Parliamentary and (b) Local Govt. show the nature of the qualification to vote:

- R = Residence qualification
- B = Business premises qualification
- O = Occupation qualification
- D = Qualification through wife's occupation

- If the letter is followed by a "w" the qualification is for a woman.

- A "†" indicated person not entitled to vote at elections for County Councillors.

- Persons who qualify to serve as jurors have their name followed by a "J".
